

Yardley Gobion CE Primary

“Using the talents God gave us to achieve and shine”
To inspire individuals, through our Christian values, to use their skills to succeed academically, artistically, physically, socially and emotionally

Curriculum Drivers

Knowledgeable

Aim: YGPS children will work hard and will understand the role knowledge has in learning about the world. They understand the considerable value of knowledge and apply it to their learning. They work hard to remember what has been taught and use that to deepen their understanding across the curriculum.

EYFS

•YGPS children are taught well and their knowledge will increase as a result. They apply this to their child-led learning opportunities, especially when reading. They enjoy knowing more and take pleasure from getting things right.

KS1

•YGPS children are exposed to an increasing amount of knowledge. This is prioritised to ensure there is a good foundational understanding of concepts. This subject-specific knowledge is shared with the children and they use a range of retrieval and learning review techniques to encourage the remembering of this powerful knowledge.

LKS2

•YGPS children use their existing knowledge to support them in ascertaining more. They begin to make links to prior learning and have a deeper understanding of concepts from within the curriculum. They are becoming increasingly familiar with retrieval activities that strengthen their ability to recall powerful knowledge. Children love being quizzed and enjoy being able to answer questions about their curriculum.

UKS2

•YGPS children make connections between the knowledge that they have ascertained throughout their time at school. They build an increasingly vast knowledge bank which supports them in making sense of the world. Children have a thirst for knowledge and retain the vast majority of taught content. This means that they are able to deepen their understanding of some of the big concepts in the curriculum.
